RE: Letter - Construction Projects at Land Use Control Sites; SWMUs 14, 24, 25 and
Hazardous Waste Storage Facility, HSWA Permit FL9 170 024 260; Naval Station
Mayport, Mayport, FL

Dear Ms. Mitchell:

I have reviewed the above document dated December 16, 2002. The document is in accord with our discussions at the Partnering meeting in January and the actions at SWMUs 24 and 25 are consistent with industrial use, appropriate for those sites. Please know that I consider land use controls at SWMUs 24 and 25 to be voluntary because the process of formulating and accepting a Statement of Basis for these sites has not been completed. For the record, I will place this document in the Mayport LUC MOA file.

I look forward to seeing you at the next Mayport Naval Station Partnering meeting next week. If you need any other assistance, please contact me at 850-245-8999.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
